

North Texas Dialog

The Sustainable Development Goals are marking their **75th anniversary** at a time of great disruption for the world. Will we emerge stronger and better equipped to work together? Or will distrust and isolation grow further? **2020 must be a year of dialogue**, when we come together to discuss our priorities as a human family, and how we can build a better future for all.

Join the local **Regional Center of Expertise** as it launches North Texas's biggest conversation on building a better future

for us all. There are **three exciting virtual events** starting Global Goals Week.

Tues 9/22 @10am

North Texas Food Bank's Dr. Valerie Hawthorne

will share the challenges faced during the pandemic.

EPA's Stephen Sturdivant

will share how the Food Recovery Challenge helps reduce food loss.

Week of 10/14 @12pm

Dallas College's Lori De La Cruz

will share how a Citizen Science initiative can advance reaserch and increase the public's understanding.

Wed 10/28 @4pm

North Texas Innovation Alliance's Jennifer Sanders,

will discuss the Alliance's efforts to serve as a national model for supporting citizens across municipal borders

NCTCOG's Tamara Cook
